*Coaching and Hypnosis are co-operative partnerships between the client and the facilitator to create change in both the conscious and subconscious space. I am a Certified Life Coach and Certified Clinical Hypnotherapist, not a Licensed Medical Doctor or Mental Health Professional. As such, hypnosis services performed are non-therapeutic and not intended to take the place of professional counseling, medical, or psychological care and should not be used as a substitute for diagnosis or treatment of any condition. I do not work on pain or diagnosed mental or physical conditions without the referral from a licensed practitioner of the healing arts per Florida Statutes Section 485. Clients who are under the care of a medical professional for any condition for which they are seeking hypnosis support, must obtain a signed, written referral from their provider prior to engaging me and moving forward with related sessions. I look forward to partnering with you to help you create **Powerful Positive Change!***
